Fortress
Diagnostics

Advancing Global Diagnostics

Fortress Diagnostics is a well-established IVD manufacturer based in the United Kingdom supplying products to over 100 countries worldwide. We have been providing our distributors and end users with high quality products for over 20 years.

Our proven product performance, matched with our selection of reputable distribution partners, has been instrumental in our continued success and growth. Built on a culture of quality and performance, we are committed to providing our customers with a reliable service and results they can trust.

Our ISO 13485:2016 certification for the design, development, manufacturing and distribution of in vitro diagnostics medical reagents and instrumentation endorses our product range and ensures that the highest quality standards are constantly maintained.

Through our global distribution network, we provide highly accurate medical testing solutions to immunology, haematology and serological laboratories in hospitals, medical centres, clinics, blood banks and research institutions in over 100 international markets.

Hosting an in-house Research and Development team, we are committed to creating the next innovative IVD solutions to exceed our customer's requirements and advance the healthcare industry.

Our Product Range

Original Equipment Manufacturer (OEM) Services

OEM partnerships in in-vitro diagnostics play a crucial role in the development, manufacturing, and commercialization of diagnostic products.

Partnering with Fortress Diagnostics as an OEM provider, allows partnerships to benefit from our technical expertise, manufacturing efficiency, and regulatory compliance capabilities, enabling brand owners to focus on innovation, market differentiation, and global market expansion. Ultimately, OEM arrangements drive the advancement of diagnostic technologies and improve healthcare delivery worldwide.

Why are Fortress the OEM Partner of Choice?

Cost effective solutions: Avoid significant upfront investments in manufacturing facilities, equipment, and personnel.

Quality and innovative products: We adhere to stringent quality control processes and regulatory requirements to ensure the reliability, accuracy, and safety of diagnostic products.

Extensive range of manufacturing options across all of our product ranges: Fortress Diagnostics offer OEM services across over 1000 products.

Expert in-house advice: Specialized knowledge, expertise, and resources in diagnostics manufacturing, including instrumentation, reagent formulation, and quality control processes.

Experience supplying global customers in rapid turnaround times: Fortress adapt products to meet local regulatory requirements, language or market preferences.

Dedicated to bringing new technologies to the market: We focus on innovation and product development, leveraging OEM manufacturing capabilities to bring new diagnostic products to market.
